

# Adding Other Support

The Other Support section of the Professional Profile allows you to store information about your other support. Many of the grant makers using proposalCENTRAL may collect information about your other support in their applications and post-award reports. If they use the specially designated Other Support feature, the information you enter in the Other Support section of the Professional Profile can easily be added to any applications and post-award reports.

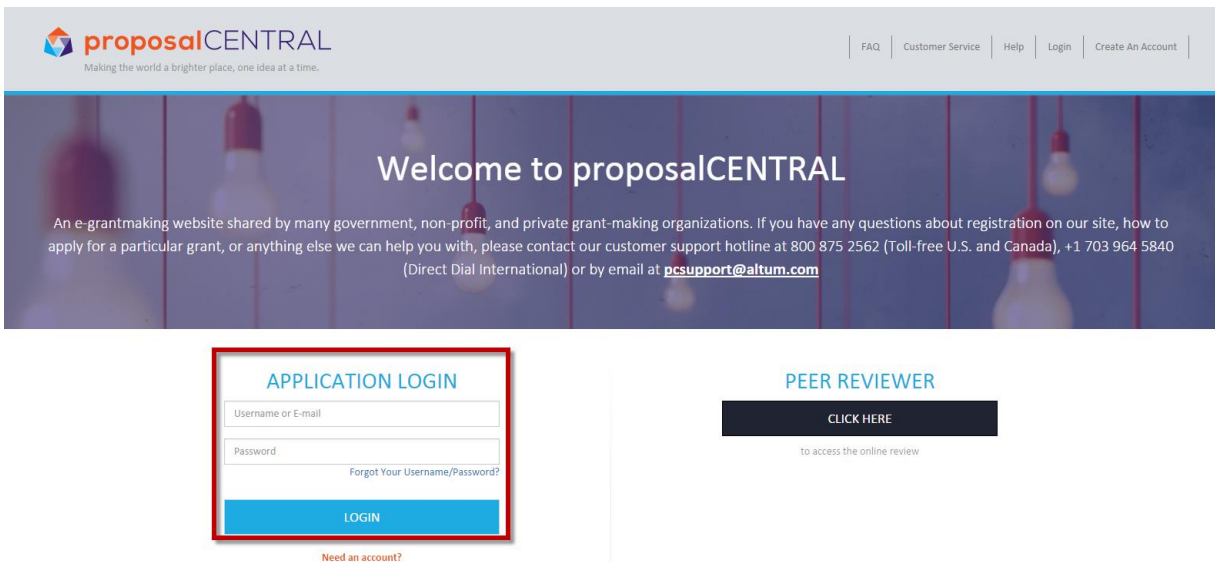

This tutorial includes the following information:

Adding Other Support to Your Professional Profile .....	1
Adding Other Support From Your Professional Profile to an Application .....	3
Adding Other Support From Your Professional Profile to a Web Form Deliverable.....	8

## Adding Other Support to Your Professional Profile

To add other support to your Professional Profile:

1. Go to proposalCENTRAL (<https://proposalcentral.altum.com>) and login under Applicant Login.

2. Click the green Professional Profile link and then the [Other Support](#) link in the gray menu on the left. The first time you access the Other Support section, it will be blank as you have not added any entries yet. (See the following page for graphic.)

## Adding Other Support From Your Professional Profile to an Application

Grant makers require different information in their applications. Therefore, your application may not collect information on other support. Additionally, even if the grant maker you are applying to is collecting other support, they are a variety of methods they may use to collect the information. The following section ONLY refers to the collection of other support information using the special Other Support feature in the application.

The Other Support feature is a section accessed in the menu and the page includes an [Add New Entry](#) link that opens a window with a drop-down menu displaying the other support entries from the applicant's Professional Profile.

The image shows two screenshots from the Altum proposalCENTRAL Application System. The top screenshot is the 'Other Support' page. On the left is a navigation menu with sections: 'Proposal Sections' (containing links like General Information, Enable Other Support, Other Support, Publications, Validate, Proposal Summary, Submit), 'Support Links' (Grantmaker Website, Program Guidelines, Email to Program Admin, Application FAQs), and 'Proposal Identifiers' (Proposal ID: 299428, Tracking Number: Unassigned, Grantor ID: Unassigned). The main content area has a title 'Other Support', navigation buttons '<Previous' and 'Next>', and an 'Exit' button. Below this is a table with columns 'Action', 'Status', 'Award Number', 'Funding Source', and 'Title'. An 'Add New Entry' link is positioned below the table. A red callout box points to the 'Other Support' menu item, stating 'The name of the page may be different.' Another red callout box points to the 'Add New Entry' link, stating 'Clicking the "Add New Entry" link will open a window where you can select other support entries from the applicant's profile.' Below the main screenshot is a modal window titled 'Altum proposalCENTRAL Application System - Google Chrome'. It has a 'Close Window' link at the top. The main heading is 'Other Support'. The instructions read: 'INSTRUCTIONS: Select the appropriate Other Support and enter a description of the overlap with this project. Click 'Save' to save your changes. When you are done, click 'Save' and then 'Close Window'.' Below the instructions is a red arrow pointing to a dropdown menu labeled 'Select Other Support:' with the text 'Select Other Support from the Applicant's Professional Profile' and a downward arrow. Further text explains that the information shown is read-only and can be updated via the 'Edit Professional Profile' link.

If the other support that your application is collecting does not have the functionality described above, then the following steps do not apply to your application.

Use the following steps to add other support entries using the Other Support functionality.

### Step 1

Click the [Add New Entry](#) link (shown above).

## Step 2

A pop-up window or new browser tab will show with instructions and a drop-down menu. The drop-down menu will include all of the other support entries included in the applicant’s Professional Profile, along with an option of “N/A”.

[Close Window](#)

### Other Support

**INSTRUCTIONS:** Select the appropriate Other Support and enter a description of the overlap with this project. Click 'Save' to save your changes. When you are done, click 'Save' and then 'Close Window'.

**If all necessary entries are showing and/or you don't have any other support to report, [click here to skip to step #3.](#)**

**If you need to add any other support entries,** you need to do this in the applicant’s Professional Profile. To update the other support in the applicant’s profile:

1. Click the [Close Window](#) link at the top without saving anything.
2. If you are the applicant, you’ll see an **Edit Professional Profile** button. If you are NOT the applicant, but you have access to the applicant’s Professional Profile, you’ll also see the **Edit Professional Profile** button. If you don’t have access to the **Edit Professional Profile** button, you will need to contact the applicant and ask them to provide you access to their Professional Profile (“Enable other users to access your profile” section of profile).

If you have access to the **Edit Professional Profile** button, click it.

- Select the appropriate other support entry from the drop down menu.

2. The details for the selected other support entry, as saved in the applicant's Professional Profile, will be displayed below. If the information showing is:
  - a. Incorrect or missing: You will need to update the information in the applicant's Professional Profile. [Click here](#) to be directed to the section on adding other support entries. That section will include information on editing the entries in the applicant's Professional Profile.
  - b. Correct and complete: There may be additional fields at the bottom asking for information about overlap. If so, enter the requested information. When done, click the **Save** button and then click the [Close Window](#) link. If you have additional other support to report, repeat the steps (i.e. click the [Add New Entry](#) link, select other support, add information, save, and close). Once all of your other support is entered, you can work on the remainder of your application. ([See the following page for graphic.](#))

## Adding Other Support From Your Professional Profile to a Web Form Deliverable

If an application is funded, the grant maker may choose to manage the life of the grant in proposalCENTRAL (i.e. post-award management). Part of post-award management is the collection of materials known as “Deliverables”. A grant maker can collect deliverables from you as either a file or text in the interface. Your funder may use only one or both methods. If they want the material as a file, you’ll see an [Upload](#) link listed for the deliverable (1). If they want you to complete an on-line form (aka web form), you’ll see either a: 2a) [Start](#) link, for a web form you haven’t started yet; or 2b) [Edit](#) link, for a web form you already started.

To submit a deliverable that is being collected as a web form (e.g. Progress Report), click either the [Start](#) or [Edit](#) link in the Add column for the appropriate deliverable.

Award Deliverables (Upload Instructions)								
Due Date	Deliverable Type	Date Submitted/ User	Type Description	Deliverable Description	Add	View	Delete	Edit Status
12/02/2011	Signed Grant Agreement		Please sign the agreement that was e-mailed to you and upload here.		<a href="#">Upload</a>			
02/01/2013	Progress Report		Please provide the requested information.		<a href="#">Start</a>			

Clicking the [Start/Edit](#) link will direct you to a page where you will complete the web form. Please note that different grant makers may request different information in their reports. One of the optional sections they can include is “Other Support”. **The following section ONLY refers to the collection of other support information using the special Other Support feature in the Web Form.** For information on other post-award features, including how to complete other sections of the web form, please see the “Instructions for Navigating Your Awarded Grant” tutorial ([click here to access the tutorial](#)).

The aforementioned Other Support feature is shown in its own section within the web form and you can add relevant other support entries from the grantee’s Professional Profile by clicking the [Add New Entry](#) link. If other support is required, there will be a red asterisk (\*) in the blue bar.

Use the following steps to report other support or the lack thereof.

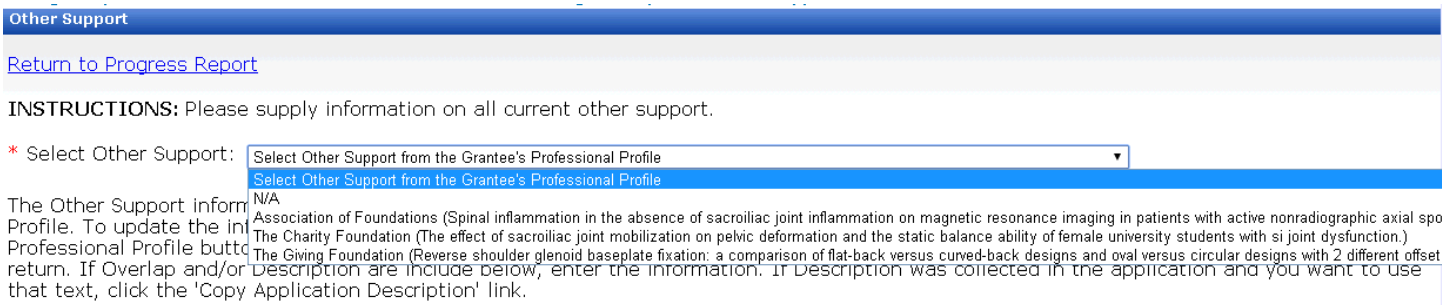

### Step 1

Click the [Add New Entry](#) link.

### Step 2

You will be directed to a page with instructions and a drop-down menu. The drop-down menu will include all of the other support entries included in the grantee’s Professional Profile, along with an option of “N/A”.

**If all necessary entries are showing and/or you don’t have any other support to report, [click here to skip to step #3.](#)**

**If you need to add any other support entries,** you need to do this in the grantee’s Professional Profile. To update the other support in the applicant’s profile:

1. Click the [Return to](#) link at the top without saving anything.
2. If you are the grantee, you’ll see an **Edit Professional Profile** button. If you are NOT the grantee, but you have access to the grantee’s Professional Profile, you’ll also see the **Edit Professional Profile** button. If you don’t have access to the **Edit Professional Profile** button, you will need to contact the grantee and ask them to provide you access to their Professional Profile (“Enable other users to access your profile” section of profile).

If you have access to the **Edit Professional Profile** button, click it.

- This will direct you to the grantee’s Professional Profile. [Click here](#) to follow the steps in the “Adding Other Support to Your Professional Profile” section. When you have completed adding/updating the other support entries, click the **Return to Deliverable Web Form** button.

Return to Deliverable Web Form  
 Be sure to save changes to the profile before returning.
